Yu-Gi-Oh! is a card game that has different attributes and images of monsters, these cards are placed on the field performing their different actions like offensive, defensive and supporting move, the cards has 23 types. the types of cards are Spell, Trap, Ritual, Dragon, Magician, Zombie, Warrior, Beast Warrior, Beast, Wing Beast, Fiend, Fairy, Insect, Dinosaur, Reptile, Fish, Sea Dragon, Machine, Thunder, Aqua, Pyro, Rock, and Plant.

To Duel, press the R Button, Dueling with another player will earn you a Domino, Deck Capacity, Duelist Level, Card Locator and a Card. Dominoes are the unit of money used in the game, You can buy cards at the Card Shop. Deck Capacity is the units cards, Cards with high capacity cannot temporarily be played in the game. Duelist Level indicates how you progress by dueling a player. A Card Locator can only be acquired by fighting special duelists. And you can also earn a card if you select one of your card as an Ante, choosing a rarer card as an Ante can also make you acquire a rare card from the player.

To view a card's details, press the L, start, or select button to activate the menu and choose Trunk or Deck. Choosing Deck will put you in a screen where you can view the list of cards you'll use in battle, while choosing Trunk will put you in a screen where you can view all the 900 cards, this acts as your card list. Select a card by pressing A button and select Details, this enables you to view the card's status.
